The encryption process is based on a user-defined password; decryption is possible only if the program is provided with the password used for the encryption - No problems during encryption/decryption - Works with all PDF versions from PDF 1.1 and up to PDF 2.0 - Encrypted PDF documents can be easily decrypted - Encryption and decryption is fast and reliable - Password can be remembered by the user or can be stored in a file - Useful for business or for private use - No third-party libraries or patches required - Uses common Windows API methods - No external programs required The most powerful, fast and flexible business solution for PDF generation, conversion, encryption, watermarking, signer/signature pad and PDF Form filling, then go and have a

What's New in the Appnimi PDF Password Kit?

Appnimi PDF Password Kit is a handy and reliable program designed to encrypt and decrypt PDF documents. The encryption process is based on a user-defined password; decryption is possible only if the program is provided with the password used for the encryption. For every user PDF password can be configured as a single value (i.e. "password123") and all future documents encrypted with the same password will be decrypted automatically. After a document has been encrypted the user has the option of keeping the document in this encrypted state (i.e. "password123") or he/she can activate the option of restoring the original document (i.e. "password123"). This Appnimi PDF Password Kit Features: - Provides an interface for entering the password and storing it in a file.- Provides an interface for exporting the encrypted document with the password, in a file format compatible with Adobe Acrobat and Microsoft Word.- Supports all common file formats (PDF, DjVu, XPS, RTF, EPUB, etc).- Supports almost all common printers. Appnimi PDF Password Kit Publisher's Description: Appnimi PDF Password Kit is a handy and reliable program designed to encrypt and decrypt PDF documents. The encryption process is based on a user-defined password; decryption is possible only if the program is provided with the password used for the encryption. For every user PDF password can be configured as a single value (i.e. "password123") and all future documents encrypted with the same password will be decrypted automatically. After a document has been encrypted the user has the option of keeping the document in this encrypted state (i.e. "password123") or he/she can activate the option of restoring the original document (i.e. "password123"). This Appnimi PDF Password Kit Features: - Provides an interface for entering the password and storing it in a file.- Provides an interface for exporting the encrypted document with the password, in a file format compatible with Adobe Acrobat and Microsoft Word.- Supports all common file formats (PDF, DjVu, XPS, RTF, EPUB, etc).- Supports almost all common printers. Advanced features:- Add a comment to the encrypted document or to the decrypted document.- Export file with password to different locations (USB-stick, FTP server, email, etc.).- Export with encrypted password in different formats.- Export the whole encrypted document as a Zip-Archive file.- Compress the whole encrypted document.- Add Text to a document with the selected font.- Edit the PDF password.- Set the permissions to a document.- Show the location of the decrypted document.- Add a text to the back of a document.- Split the PDF file.- Print page by page.- View the list of all files stored in a PDF.- Find a file by its name, size, date, last
